

COMPRESSED AIR STATIONS

CUSTOM MADE SOLUTIONS

APPLICATIONS

CUSTOM MADE SOLUTIONS FOR:

- general industrial applications
- automotive
- electronics
- food and beverage
- petrochemical
- plastics
- paint
- packing industry
- biotechnology
- breweries
- chemical industry
- dairies
- fermentation processes
- pharmaceutical industry
- hospitals...

DESCRIPTION

Our specialty is the design and construction of compressor stations according to specific requirements of our customers.

We carry out measurements of production process requirements on the basis of which the compressed air station project is made.

Professional approach to the project ensures reliable operation, maximum space utilization and high energy performance. Only high quality devices and materials are used.
